

# The Glenferrie Rotarian

May 7th 2019 Vol.47 No. 22

## PRESIDENT'S REPORT

### MAY 07 2019

Dear Members,

I was lucky and honoured to attend and judge at the Model United Nations Assembly (MUNA) last weekend at Swinburne University. The event was a great success with many students coming from all over the district. It was a great team effort for both Clubs, the Rotary Club of Glenferrie and Rotary Club of Chadstone East Malvern. Thank you to Newton Langford and Chris Don for organising this wonderful event and of course the many wonderful Rotarians working behind the scenes. Congratulations to the winning team (sponsored by Glenferrie which now represent our district in Canberra. We hope that Laura and Archie will be able to report to us on their experience in June.

May is the month Rotarians develop skills and learn the life of a Rotarian. On Sunday 26th of May at Tabcorp Park, Melton is the Rotary District 9800 Assembly. This is an opportunity to learn more about what's happening in the District and Rotary more broadly. It will run from 8.30 am till lunch time and this year there will be a Grants Seminar in the afternoon. I encourage members to take this opportunity. Please see Charles Tran or Don Moore for more information about attending.

Further developing your skills as a Rotarian, The Rotary Leadership Institute is a four part program where you will learn a little more about Rotary, the early history, traditions, the Rotary Foundation, and its relevance in the world today. You will make new friends in an enjoyable environment. This program is perfect for members who have joined Rotary in the last 12 months and indeed people who may be interested in becoming involved in Rotary activities. We have two programs awaiting your involvement. You may wish to attend a Program to be held on Sunday the 5th and 19th of May at Montague School in South Melbourne. Again, please let Charles Tran or Don Moore know if you are interested, I encourage our newly inducted members and member who have been in the club not more than 2 years to attend.

Charles Tran, President

## Guest Speaker at our last meeting

Our Guest Speaker was journalist Keith Moor.

Keith is currently Insight Editor at the Herald Sun. Keith studied journalism at West Australian Institute of Technology before starting a cadetship at the Perth Daily News in 1979. He won Australia's top journalism award, the Walkley Award for news reporting in 1986.

Keith spoke of crimes he had reported on which are included in his latest book *Mugshots 3*. He spoke of his reporting on the murder of Kylie Mayberry, a six year old who was found in the gutter in Donald street Preston in November 1984. Keith spoke of being traumatized by seeing the body of this young girl. Her killer, Gregory Keith Davies, was not caught until 32 years later.

Keith spoke of the DNA Freezer that was set up as a hunch in 1982 to store samples from crime scenes. This was done on the premise that DNA technology in the future would enable the solving of crimes in the future. In later years these samples assisted in solving until then unsolved rape cases.

He spoke of the time he interviewed Julian Knight (Hoddle Street Killer) in Pentridge goal. He recalled he spoke of his time in the Army and that he blamed the Army for what he did that night in 1987.

In a similar vein he spoke of the Queen Street Killer Frank Vidovic who shot eight people in 17 minutes before lunging out of the 11th floor window to his death. Keith recounted an episode he had with the "Calabrian Mafia" in Griffiths where as a young reporter he went to research the death of Donald Mackay. His book, *Criminals in Grass Castles* covers this period. *Mugshots 3* is the third in the best-selling *Mugshots* series.

MUNA is amazing – well for those members who have experienced this event and particularly for our new members, here is an edited version of the report from Rotary Club of Canterbury's Youth Services Director, Anne Josefsberg.

*There are so many ways to describe MUNA – exciting, action-packed, amazing and absorbing. Teamed up in pairs, students undertook research into a nominated country, selected a resolution (a proposer, a seconder, speakers for, speakers against, final thoughts expressed by the proposer, final thoughts expressed by speaker against). Delegates from countries sought clarification, offered motions of dissent, and most often of all, points of order strategically applied to draw more information from the proposer.*

*The cut and thrust of the event was assessed by a panel of three Rotarians who awarded the following categories: best male, best female, best costume, first winning team (to go forward the Canberra for the National MUNA Competition) and second winning team. The first winning team was from Swinburne Senior Secondary College, Laura and Archie, who represented Saudi Arabia. They performed extremely well. The second winning team came from MacRobertson Girls High School, Vy and Areeba, who were very close in their performance on the day (Sunday 28th April). The manner, statistics, facts and figures were absorbed by student delegates and strategically used in response to clarification and points of order were very impressive. The quality and depth of language demonstrated conveyed eloquence and a deep understanding of the issues within the resolutions.*

*The day was so satisfying and I heard one of the delegates declare that she did not believe that there was other people who had the same level of interest in politics as she did. In a world where it often appears that many citizens are ignorant of the world around them, I found myself in a room full of current affairs junkies. It was such a pleasure to be there, surrounded by them, soaking up their intense enthusiasm, passion and raw intelligence*

Glenferrie Rotary sponsored three teams: two from Auburn High School and one from Swinburne Secondary and I am pleased to report that Laura Moorcroft and Archie Macdonald representing Saudi Arabia took the prize for best debating team and will be heading to Canberra in August.
